

## Core Competencies

**Information Technology & Systems Support**  
Technical operations, systems administration, and network maintenance supporting secure and efficient mission environments.

**Cloud & Infrastructure Services**  
Migration planning, hybrid environment support, and performance optimization for on-prem and cloud systems.

**Project & Program Management**  
Strategic planning, PMO support, and process improvement across IT, construction, and facility projects.

**Construction & Facility Support Services**  
Light construction, structural setup, and maintenance services supporting training, operational, and administrative facilities.

**Landscaping & Grounds Maintenance**  
Site preparation, environmental upkeep, and base-level grounds improvement supporting readiness and safety.

**Advisory & Technical Consulting**  
Operational assessments, workflow analysis, and solutions that integrate technology, logistics, and personnel readiness.

## Differentiators

**Veteran Leadership & Discipline**  
Mission-focused execution with military-grade accountability

**Agile & Rapid Deployment**  
Quick response times and flexible engagement models

**Security-First Approach**  
Zero-trust architecture and FedRAMP-ready solutions

**Partnership-Driven Culture**  
Long-term relationships built on trust and performance

## Past Performance / Team Experience

Federal Systems Support (Under Subcontract)

Prime Contractor: [Confidential]

\$ \$250K+ (Subcontracted) Jan 2024 – Present

Provided Tier-II IT and systems administration services in support of federal operations. Delivered AWS GovCloud monitoring, network troubleshooting, and performance optimization across hybrid environments. Improved alerting reliability and documentation standards for mission-critical systems.

Training Infrastructure & Construction Support

U.S. Department of Defense (Performed During Military Service)

\$ \$150K+ (Estimated Labor Value) 2019 – 2023

Led teams in constructing and maintaining modular training facilities and temporary structures supporting unit readiness. Ensured adherence to safety standards, operational requirements, and project completion timelines.

Landscaping & Facilities Maintenance

U.S. Department of Defense (Performed During Military Service)

\$ \$100K+ (Estimated Labor Value) 2018 – 2023

Supervised landscaping, grading, and site improvement projects across multiple installation areas. Enhanced grounds conditions, controlled erosion, and supported mission readiness through preventative maintenance efforts.

Commercial Cloud Pilot Projects

Small Business Clients (Private Sector)

\$ \$15K (Pilot Engagements) 2025 – Present

Delivered initial cloud monitoring, dashboard automation, and system health reporting solutions for small businesses. Established Sierra Peak Group's service framework for quality assurance and customer engagement.

## Company Data

- # NAICS Codes
- 541512 – Computer Systems Design Services
  - 541513 – Computer Facilities Management Services
  - 541519 – Other Computer Related Services
  - 541611 – Administrative & Management Consulting Services
  - 541690 – Technical & Engineering Consulting Services
  - 561730 – Landscaping & Grounds Maintenance Services
  - 238990 – Other Specialty Trade Contractors

- # PSC Codes
- D302 – IT & Telecom: Cyber Security and Data Backup
  - D307 – IT & Telecom: IT Strategy & Cloud Support
  - D399 – IT & Telecom: Other IT & Telecommunications
  - R425 – Engineering & Technical Support
  - R699 – Administrative Support Services
  - Z1AA – Maintenance, Repair, or Alteration of Office Buildings

- Set-Asides & Certifications
- Service-Disabled Veteran-Owned Small Business (SDVOSB)
  - Small Business

- Contract Vehicles
- Open Market
  - GSA Schedule [Pending]
  - Partnership / Teaming Opportunities [Available]
